Education

Imperial College London

United Kingdom | Oct 2021 - June 2024

BSc Biological Sciences (3FYT)

Graduated 2nd Upper Class with Honours, With Associateship of the Royal College of Science.

- **Demonstrated Clear Communication, Data Analytics:** Effective analysis to arrive at independent and data-supported report conclusions that were defended at multiple poster conferences, General Meetings, viva defenses.
- **Computing Dissertation:** R, Python and computing cluster to simulate populations for estimating population parameters.
- **Process Improvement:** Improved compute efficiency and reduced simulation time by 60% in final year dissertation.

Professional Experience

Nippon Paint Holdings [Sustainability & HSE Office, Business Transformation Office Executive]

June 2025 - Present

- **Global Sustainability Reporting:** Collated reporting for GRI, SASB, with an eye on bridging the gaps for future ISSB reporting.
- **Data Systems Project Management:** Managed an offsite team of software developers to enhance data collection systems for safety and sustainability metrics; eg. high potential incident and process safety reporting system enhancement project.
- **Data analysis & quality assurance:** Addressed discrepancies in collating Scope 1, 2 & 3 emissions, safety reporting from 128 plants in 28 regions.
- **Corporate Functions:** Managed several cross-function operational efficiency projects under the Business Transformation Office.

GoNetZero, Sembcorp Industries [Business Analyst Intern]

Jan 2025 - May 2025

- **Strategic Business Insights:** Analysed energy attribute sales and client engagement, deriving 7 strategic insights with forecasted 10% margin increase.
- **Project Management:** Managed a company-wide overhaul of communication platforms.
- **Process Improvement and Automation:** Streamlined the sales pipeline, increasing operational efficiency by 15%.

Boston Consulting Group [Climate & Sustainability Job Simulation]

November 2024

- **Emissions Analysis and Categorisation:** Categorised emissions for hypothetical automotive company's carbon emissions analysis, calculating baselines and comparing data from the CDP database.
- **Strategic Reasoning and Risk Identification:** Analysed and recommended 6 carbon reduction initiatives to achieve Net Zero, considering effective Scope 3 strategies and GRI, TCFD standards.
- **Client Communication:** Communicated findings and recommendations in clear emails and presentations.
- **Investor Relations:** Adapted messaging strategies to address investor concerns, aligning with client's sustainability goals.

Boston Consulting Group [Strategy Consulting Job Simulation]

November 2024

- Completed a job simulation where I advised a hypothetical telco company facing a decline in profits
- **Market research** to determine the feasibility of the proposed solution
- **Financial Modelling and Basics:** Predicted potential profitability of the proposed solution in Excel model
- **Stakeholder Management:** Presented clear summary of key findings to stakeholders and addressed client concerns.

OliverWyman [Climate Change Job Simulation]

November 2024

- **Classified Financed emissions:** Calculated Absolute Financed Emissions, PEI, and FELI.
- **Net-Zero Scenario Recommendation:** Researched external net-zero scenarios and recommended one to Bank ABC for target-setting, considering cost, policy strictness, and transition risks.
- **2030 Value Calculation and Strategic Recommendations:** Forecast 2030 values and provided 3 strategic recommendations to Bank ABC for achieving their goals.

Imperial College London [UROP Researcher, StudentShaper Intern]

June 2023 - Aug 2023

- **Lab Research and Analysis:** Researched own UROP project using computational skills, research and genomic techniques on the impact of warming and chemical stress on the ecosystem in the Life Sciences department & the University of Essex.
- **Risk Assessments:** Developed risk assessments for the laboratory and field working environments for the research group.

Arborculture Ltd [Environmental Data Intern]

Aug 2022 - Sept 2022

- **Environmental Consulting:** Ecology field assistant, QGIS and LIDAR for Environmental Impact Assessments (EIA).
- **R Data Analytics:** Programmed R scripts for data cleaning and analysis in EIA projects.

NParks Wildlife Management Division [Temporary Staff]

Feb 2021- June 2021

- **Communication:** Produced publicity materials for schools and wildlife advisories for the public
- **Coordination:** Facilitated Youth Stewards for Nature programme as the NParks-YSN coordinator.
- **Fieldwork:** Assisted with wildlife releases, data collection in wildlife and vegetation surveys.

Projects

Sustainability Reporting | Nippon Paint Holdings (NIPSEA)

June 2025 - Dec 2025

- Accounted for Scope 1, 2 & 3 emissions from 128 plants in 28 regions in annual emissions stocktake.
- Aligned NIPSEA definitions of water, waste reporting with partner companies in line with GRI disclosure standards.

CRM Customer Churn and Win/Loss Analysis | GoNetZero

Feb - May 2025

- Pitched and analysed Microsoft Dynamics CRM Sales funnel data for customer churn and win/loss analysis on clients.
- Derived 7 strategic insights from CRM client engagement data, with forecasted 10% margin increase.
- Proposed 5 strategic changes for a downstream CRM improvements project

Final Year Dissertation | Imperial College London

Mar - June 2024

- Github: [Estimating recent effective population sizes from resistance loci](#) in *Anopheles gambiae*.
- Built a computational pipeline to simulate in-silico populations on high-powered computing cluster, using Linux and Python scripts to estimate population parameters and compare with previously published estimates.

Runner Up in C40 Students Reinventing Cities Lisbon

Oct 2022- June 2023

Sustainability & Nature-based Solutions Lead | Futuro Connectado

- **Urban Sustainable Design:** Sustainability/Nature-based Solutions lead in the team that won 2nd in redesigning Mouraria, Lisbon under sustainable, human-centric and ecologically-friendly principles.

Extracurricular activities

Co-director Whole Systems Policy | Imperial+

Oct 2023 - Oct 2024

- **Policy Development:** Driving sustainability, collaboration across external and college ecosystem.
- **Organisational Culture and Behaviour:** Building a culture of sustainability within college, based on UN SDGs

Co-lead Youth Stewards for Nature | National Parks Board

2021 - Present

- **Project Management:** Mentor and founding member of Urban Civets YSN.
- **Administration:** Key member and coordinator for the Responsible Interactions with Wildlife Group. Led the social media team and organizing outreach.

Executive Committee | Imperial College Singapore Society

Oct 2022 - June 2023

Executive Committee | Imperial UNICEF

Oct 2023 - June 2024

- **Organisational Leadership** - Led 7 representatives to organize recreational/competitive sporting events internally and in conjunction with other UK Malaysian/Singapore Societies under the *play@ICSS* initiative.
- **Project Management** - Primary Events Officer for multiple Imperial UNICEF fundraisers, ICSS's annual Hyde Park Picnic.
- **Interpersonal skills** - Tailored approach and communication to representatives and players amidst budget cuts faced by reduced funding from the society's sponsors.
- **Adaptability and Process Improvement** - Rebuilt pandemic low participation rates from 2% to 38% using *play@ICSS* sports and cross-university initiatives such as the Warwick Summer Games to integrate new arrivals with existing support structure.
- **Proactive** - Restructured *play@ICSS* sports and re consolidated lost inventory in the pandemic to streamline processes.
- **Teamwork** - Leveraged networks with other societies in organizing UNICEF and ICSS events

Skills

Carbon Accounting • Computing • R • Python • Basic SQL • Linux OS • Bash • CRM • R Markdown • Microsoft Suite • Microsoft Word • Microsoft Excel • Microsoft PowerPoint • Microsoft PowerBI Data Analyst • English • Mandarin • Data Analysis • Bioinformatics • Google Professional Project Management • GDSC Introduction to Software Development • GDSC Introduction to Machine Learning • Process Improvement
